

We Serve Los Angeles, Orange,
Riverside and San Bernardino
Counties Since 1989

who we are

Food Finders is a food rescue nonprofit organization with a primary focus of reducing hunger while also reducing food waste. We coordinate the daily pick-up of donated excess food from grocers, restaurants, hospitals, schools, manufacturers, and more; food is then distributed directly and immediately to nonprofit recipients, such as pantries, shelters, youth programs, and senior centers, to be used for serving hot meals or as grocery distribution for people who are struggling with food insecurity.

our mission & values

- Eliminate Hunger
- Eliminate Food Waste
- Improve Nutrition in food-insecure communities

Food Finders values community, responsibility, accountability, and integrity.

our vision

We envision a community with zero hunger and zero food waste. We strive to make a positive impact on our community, the policies that govern it, and the environment we live in.

our volunteers

With the help of hundreds of committed volunteers, Food Finders is able to pick up over 330,000 pounds of recovered, edible food per week. Volunteers also help us to run our food drives, perform office tasks, and to pack and sort food in our warehouse. Our growth and impact would not be possible without their service and commitment to our mission.

the problem

Up to 40% of food goes to waste. Pre-Pandemic, 1 in 9 Americans were hungry - now it's reported as high as 1 in 5 people are food insecure. Food waste is the single largest component of municipal landfills.

our solution

With the help of our App and hundreds of volunteers, our model of food recovery and redistribution prevents edible food from entering landfills. We are delivering it to our community partners who can redistribute it directly to those who need it most.

Technology powered by the actions and passion of committed volunteers

Why Food Waste Matters

When You Waste Food, You Contribute to Climate Change & Waste Tons Of Water!

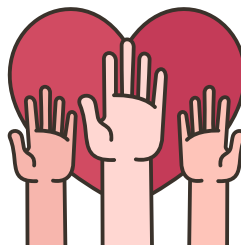

Supporting this event means you are making an impact by helping Food Finder's operations coordinate the daily pick-up of surplus food--keeping it out of the landfills - taking it directly to our nonprofit partners for use or distribution the same day.

In 2022, Food Finder's operations saved 6,104,381,256 gallons of water and diverted 7,269,033 pounds of CO2 Emissions.
